# Who we are?

Some short fancy text/slogan  
about company maybe with  
image, we could place “Meet the  
team” gallery here for example  
but I think it would be better if  
we place it in another subpage  
accessible from “hamburger”  
menu

## Where we are?

Some newses what company  
have done recently, with images  
and buttons “read more”

On the bottom on main, landing page there could be this image, I wasn't told what it does mean or what is its role but I assume its some kind of placeholder of map with localization, where company is located and also some mail list or telephones
